BIG MOVE

➤ **BIGMOVE. 360°.**

Specialists in heavy goods logistics and project forwarding.

We move. Since the founding of **BIGMOVE AG** in **2004**, the partner network has continuously grown. The history of **BIGMOVE Projekt GmbH** began in **2019**, when we successfully established ourselves independently from BIGMOVE AG, with a clear goal in mind: to overcome challenges in the field of heavy load logistics with tailored solutions. Our roots and the extensive network of our partners at BIGMOVE AG give us the strength, flexibility, and efficiency that you would expect from a leading logistics company.

As a **project forwarding company** with a clear focus on special and heavy transports, we offer world-class logistics solutions worldwide. Our dedicated team of experts plans and executes complex transports of extraordinary loads for you – reliably, safely, and on time. We rely on state-of-the-art technology, innovative strategies, and a global network that enables us to handle even the most demanding tasks.

With **BIGMOVE**, you have a competent partner by your side who ranks among the best both in theory and practice. Together with you, we develop individualized logistics concepts that are precisely tailored to your needs. Trust in our know-how and our many years of experience in heavy load logistics.

BIGMOVE – because heavy goods are in the best hands with us.

Core business

Plant engineering

- Relocation of plants and machines worldwide
- Planning multimodal modes of transport
- Engineering of complex tasks
- Short and long-term storage solutions
- Fine and heavy cargo assemblies

Project

- National and international project business
- Logistics solutions from A-Z
- Networking the modes of transport Water, air, rail and road
- Many years of project experience

Construction

- Networked use of vehicles
- Route permits according to § 29
- Standardized fleet vehicles
- High flexibility and short response times

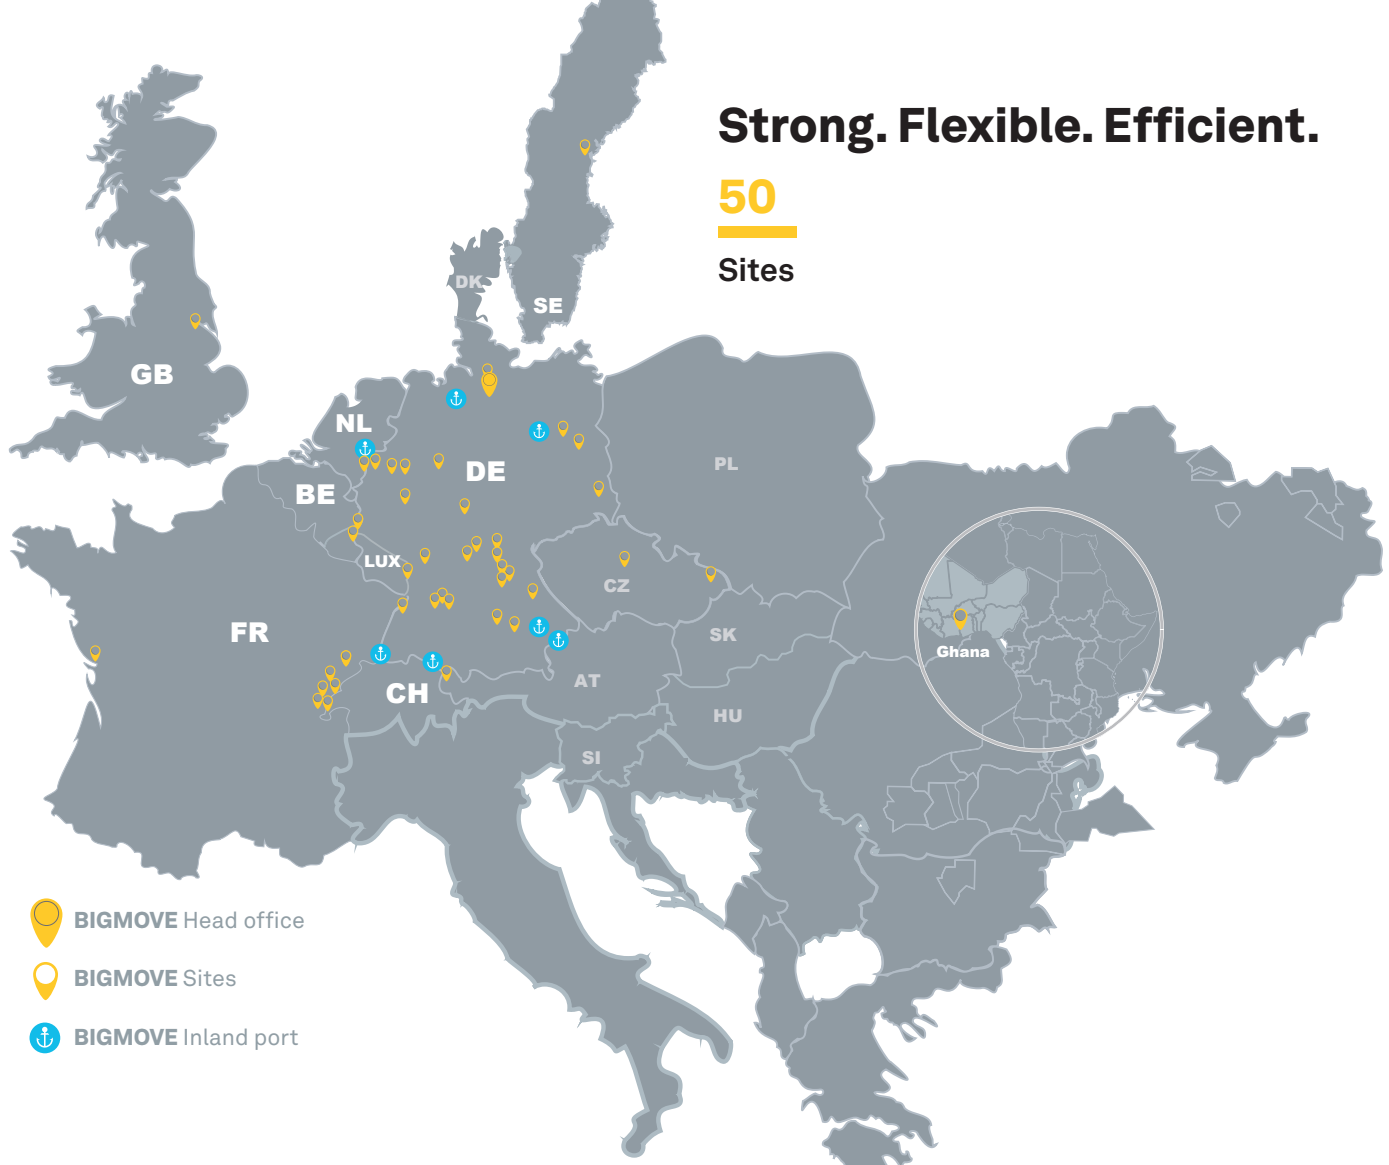

Windcraft

- Relocation and relocation of wind turbines
- Customised vehicles for wind power transport
- Professional advice
- Efficient, sustainable and digitalised route planning
- 3D route simulation and 3D curve radius calculation

Strong. Flexible. Efficient.

50
Sites

-  **BIGMOVE** Head office
-  **BIGMOVE** Sites
-  **BIGMOVE** Inland port

BIG MOVE

 **We move.**

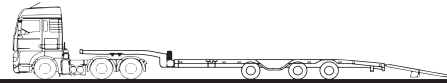

➤ Multimodal transport.

- Own inland port locations with heavy goods warehouses
- Suitable for long distances, goods from the large plant and engineering with very high weight, extreme width and extreme height
- Bypassing road obstacles such as overloaded bridges or roads roads in need of repair
- No authorisation procedures necessary for onward transport by water
- Safe and easy transport e.g. to seaports

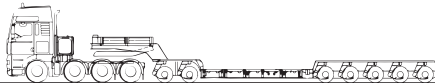

BIGMOVE vehicle type 'Samson'

Extremely manoeuvrable.

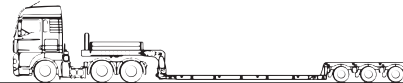

BIGMOVE vehicle type 'Road Runner'

Flexible due to small vehicle size.

BIGMOVE vehicle type 'Chamäleon II'

Can be driven over due to removable gooseneck.

BIGMOVE vehicle type 'Traumschiff'

Can be loaded from the side and from above.

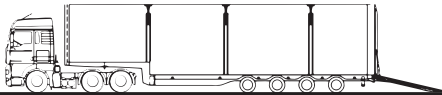

BIGMOVE vehicle type 'Popeye'

Lightweight and road-friendly.

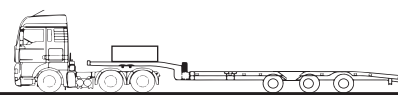

BIGMOVE vehicle type 'Easy Stretch'

Telescopic and road-friendly.

BIGMOVE vehicle type 'Protektor'

Very manoeuvrable with low loading height and under tarpaulin.

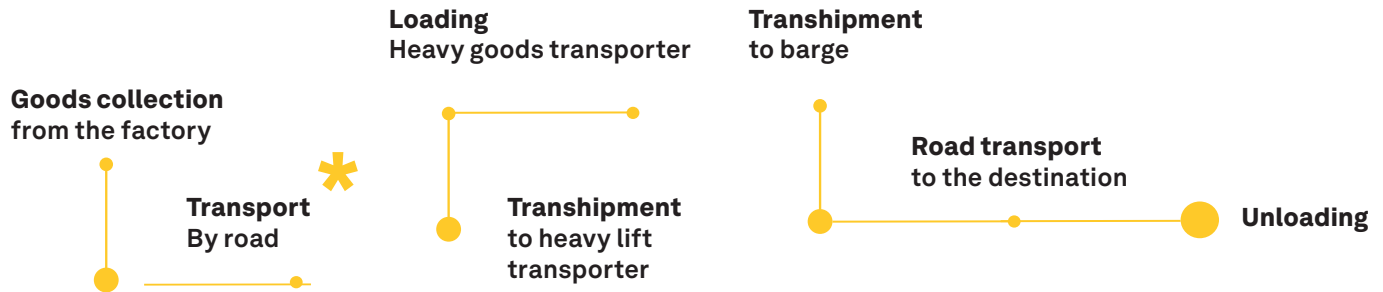

BIGMOVE vehicle type 'Joker'

Easy manoeuvrability in tight spaces.

 **Our fleet.**

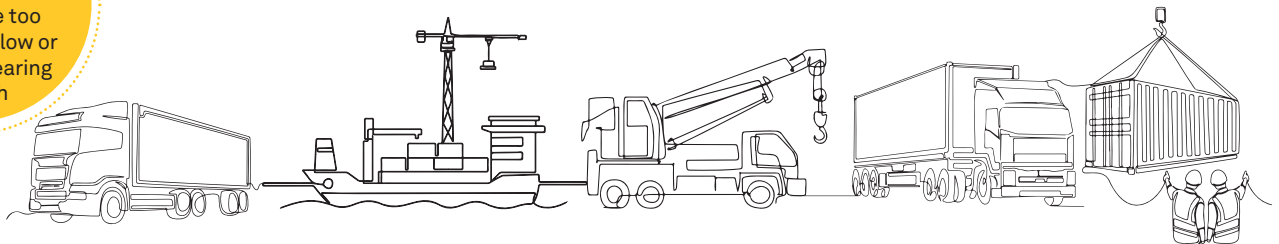

➤ Transport process.

- Route planning
- Risk assessment
- Authorisation procedure
- 3D route simulation

* Obstacle in road traffic

E.g. bridge too narrow, too low or not load-bearing enough

BIG MOVE

Safety.

- Close co-operation with authorities.
- Comprehensively certified according to ISO and SCC
- Member of the BSK e.V., Federal Association Heavy haulage and crane work.
- Board member of the European Association of Abnormal Road Transport and Mobile Cranes
